Anti wrinkle Injections (Botulinum Toxin)

Botulinum Toxin contains a highly purified protein, when injected in to the muscles the product relaxes the area and result in a reduced muscle activity. It therefore softens lines and wrinkles. Once injected Botulinum Toxin takes around 10–14 days to take effect and for you to see the optimal result. Using Botulinum Toxin early on can help to prevent wrinkles getting worse or becoming deeper. Prevention is the key! Treatment areas consist of the forehead, crows feet, eyebrow lift and it can also provide migraine relief and a reduction in hyperhidrosis (excessive sweating).

1-2 areas £170-£260
2-3 areas £260-£300

Profilo

Profilo is an injectable anti-aging treatment made of hyaluoric acid for skin that is losing its elasticity and firmness with age. Profilo differs from the usual dermal fillers in a number of ways due to its structure which allows it to flow over an extended area, boosts hydration and smooths or “remodels” the skin. This is a skin tightening treatment which targets fibroblasts, which in turn stimulates our own collagen production.

This enhances the general health of our skin to help lift and brighten the complexion.

1 treatment from £260
Package of 2 treatments £495

Skin Boosters

Skin boosters are a combination of hyaluronic acid and amino acids which are placed into the skin through micro-injections. Skin boosting injections at New Skin by Rita are designed to improve overall skin quality and induce some serious glow envy. They also compliment our Meso Micro Needling facial to give the ultimate skin boost. Skin boosters are a versatile treatment option and are suitable for anyone looking to hydrate, plump and smooth their skin. They work wonderfully to target dryness, roughness and fine lines and can considerably improve tone and texture. They can be used all over the face or to target under the eyes, smokers lines and superficial lines on the forehead.

Dermaplaning

Dermaplaning is a safe, effective way to rejuvenate the overall health and appearance of the skin. It requires the use of a sterile surgical scalpel to gently exfoliate the skin's surfaces to remove dead skin cells and fine vellus hairs known as "peach fuzz" from your face. This treatment can be added to Meso skin needling facials for the ultimate deluxe facial package.

Dermalux TriWave MD

The Dermalux treatment is a relaxing pain free experience with proven mood enhancing effects. Enjoy some luxury me-time as your skin absorbs the energising light to kick start cell regeneration and restore radiance. Each treatment lasts for around 20 minutes and with no downtime, you can simply get up and glow! As the light triggers a whole cascade of skin enhancing processes, the visible benefits continue even after the treatment has finished. Dermalux can also be used in combination with your regular skin treatments to upgrade and accelerate results. At New Skin by Rita we will advise you on the best combinations depending on the condition of your skin.
